

## BUNDLE OF TAFFY IS PASSED AS LARD

It Receives "O. K." of Inspectors of Department of Agriculture.

### MRS. CRANE TESTIFIES

Shows Committee How Easy It Is for Packers to Defraud People.

Washington, May 8.—The Rev. Caroline Bartlett Crane, of Michigan, told the House Committee on Expenditures in the Agricultural Department today how, in her opinion, the meat inspection law had been violated by regulations made by the Bureau of Animal Industry in the Department of Agriculture. Mrs. Crane appeared in support of the resolution of Representative Nelson, of Wisconsin, which asks for a congressional inquiry into the administration of the meat inspection law.

The witness resented the suggestion that she charged a conspiracy between the beef trust and the Department of Agriculture. She said she simply was trying to show how the regulations of the department had lowered the requirements of meat inspection established by law and the possibility of fraud and deception on the part of the packers.

Mrs. Crane made specific charges of fraud against any packer. She said she knew of no substitution of diseased meat for wholesome meats passed by the inspector. Her whole contention was that under the regulations it was possible for the packers to defraud the people, and that these same regulations reduced the protection to the public afforded by the law.

"Here is an object lesson," said Mrs. Crane, producing a lard can embellished with the label of a well known packing house. Attached to the label was the legend, "Inspected by the United States Department of Agriculture and passed." Inside the lard can was the government seal. Quickly breaking the seal, Mrs. Crane exhibited the "lard." It proved to be a couple of pounds of brown taffy done up in tissue paper.

When the laughter had subsided, Mrs. Crane passed the candy around, and remarked that her object lesson showed how easy it would be to pass a can of lard to the consumer with the government guarantee on the label, although it meant absolutely nothing.

A large audience was present to hear Mrs. Crane's testimony.

Dr. S. E. Bennett, inspector-in-chief of Chicago packing houses, whom Mrs. Crane quoted at several points in her testimony, was there.

Mrs. Crane recounted her experience in packing houses in Chicago, Des Moines, Kansas City and other places. She showed that post-mortem examination of cattle and hogs was perfunctory, and that condemned meat was not so labeled, although the law requires that it be stamped and destroyed.

The witness paid a tribute to the employees of the meat inspection service. The inspectors, she said, she believed honorable and painstaking public servants. Instead of criticizing them, she criticized the department. People were being deceived, she said, by the descriptions of ante-mortem examinations given by Solicitor McCabe and Chief Melvin and the Bureau of Animal Industry.

Mrs. Crane will continue her testimony to-morrow. She will be followed by J. W. Burroughs, formerly a meat inspector.

## TWO COUNTIES NAME DELEGATES

Independence, Va., May 8.—The Democratic party of Grayson county has selected the following list of delegates and alternates to the Norfolk convention. Delegate-at-large—County Chairman J. W. Burroughs.

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-purifying and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rid the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.

## Big Event in the Life of Roebling

Considers It His Duty to Publish a True Statement of the Facts

Mr. Beverly Roebling, of East Main Street, this city, made the following statement recently in connection with "Tona Vita," the medicine that is now being introduced in Richmond at the Polk Miller Drug Company. Mr. Roebling said: "It gives me a great deal of satisfaction and pleasure to state just what 'Tona Vita' has done for me. I am anxious to do so, because I feel it to be my duty to do so, that it may be the means of doing some other sufferer much good, as it certainly worked wonders for me."

In a marvelously short time it entirely relieved me of my nervousness, stomach trouble, constipation and that awful tired feeling that I experienced almost all the time accompanied by excruciating headaches. The best part of it is I feel I am cured and have gained twelve and a half pounds in the last three weeks. I cannot say enough in praise of 'Tona Vita'."

The specialists who are introducing "Tona Vita" in Richmond are giving demonstrations of what the medicine will do in five minutes. All day long they meet callers at the store where they are located and try to produce a noticeable improvement in all cases of nervous debility within five minutes; the people who take the medicine are the judges. There is no charge for this demonstration, and several hundred people tried the experiment recently.

One of the specialists said: "Tona Vita" will break all records in Richmond. People are just beginning to realize what a great preparation it is. We are instructed by our company to take no money for the tonic unless the medicine takes within five minutes; the people who take the medicine are the judges. There is no charge for this demonstration, and several hundred people tried the experiment recently.

## THE GOOD OLD DOCTOR OF CLARKE

Mothers' Clubs to Give Half of White Flower Sale to This Charity.

The Federation of Mothers' Clubs, which has been planning to obtain funds for the prosecution of its work in promoting the physical, mental and moral welfare of the children of the city by the sale of white flowers at various stations in the city on next Saturday, has been touched by the appeal in behalf of the work of "the good old doctor of Clarke," and wishes to give notice that one-half of the proceeds of its sale on that day will be turned over to aid the splendid cause at Lona-wood. It will thus be possible for all those who wish to honor motherhood by wearing a white flower next Sunday to do two other excellent things by patronizing the mothers' sale to promote the collective recognition of a collective duty toward childhood and send several children to benefit by the health-giving country breezes, under the supervision of Dr. Gwyn Harrison.

There will be a station in the Mutual building, at which the president of the federation, Mrs. William H. Burrows, assisted by other members of her executive board, will be in charge; a station at Oakwood gate, in charge of the Springfield Mothers' Club, under the chairmanship of Mrs. J. H.
